

FOR IMMEDIATE RELEASE

Tanzania Celebrates the Completion of the SGR Railway Project by Yapı Merkezi

Dodoma, Tanzania – August 1, 2024 – Tanzania is proud to announce the successful completion of the Standard Gauge Railway (SGR) project between Dar Es Salaam and Dodoma, a monumental achievement spearheaded by Yapı Merkezi. This significant milestone in the nation's infrastructure development marks a new era of connectivity, economic growth, and technological advancement for Tanzania.

A Testament to Excellence and Innovation

Yapı Merkezi, a globally renowned construction and engineering company, has delivered this transformative project with exceptional expertise, precision, and commitment. Their unwavering dedication to quality and innovation has been instrumental in bringing the vision of a modern railway system to life. The new SGR railway is poised to enhance transportation efficiency, reduce travel time, and facilitate smoother and more reliable movement of goods and passengers.

The SGR project, executed by Yapı Merkezi İnşaat ve Sanayi Anonim Şirketi, included the design and construction of key sections from Dar es Salaam to Isaka, totaling over 1,000 kilometers. The project has reinvested more than 70% of the funds into the Tanzanian economy through local suppliers, subcontractors, and employees, demonstrating Yapı Merkezi's commitment to Tanzania's growth.

President Samia Suluhu Hassan's Commendation

In her remarks, President Samia Suluhu Hassan praised Yapı Merkezi for their outstanding contribution to Tanzania's development. "This project stands as a testament to the remarkable capabilities and professionalism of Yapı Merkezi. Their relentless efforts and adherence to the highest standards have paved the way for a brighter future for our nation. The SGR railway will undoubtedly play a pivotal role in our journey towards economic prosperity and regional integration."

Acknowledging Mr. Masanja Kadogosa Leadership

Mr. Masanja Kadogosa, Director General of the Tanzania Railways Corporation, also extended his heartfelt gratitude to Yapı Merkezi. "The successful completion of the SGR railway is a milestone that reflects the strength of our collaboration with Yapı Merkezi. Their technical expertise and commitment to timely delivery have been exemplary. This railway is not just a symbol of progress, but a catalyst for socio-economic development across Tanzania."

Words of Appreciation from Yapı Merkezi

Dr. Erdem Arıođlu, the Vice Chairperson of Yapı Merkezi, expressed his gratitude towards the Tanzanian leadership and the TRC. "We are immensely proud to have been part of this landmark project. We extend our heartfelt thanks to President Samia Suluhu Hassan and the Tanzania Railways Corporation for their unwavering trust and support. This successful collaboration stands as a testament to the power of partnership and shared vision. We look forward to witnessing the positive impact this railway will have on Tanzania's future."

A Legacy of Excellence

Yapı Merkezi's dedication to this project has set a new benchmark in railway construction and engineering. Their meticulous planning, innovative construction techniques, and focus on sustainability have ensured the delivery of a world-class railway system. The SGR project exemplifies the successful partnership between Tanzania and Yapı Merkezi, demonstrating the power of collaboration in achieving monumental goals.

Looking Forward

As we celebrate this significant achievement, we look forward to the continued impact of the SGR railway on Tanzania's development. This project is a cornerstone in our nation's infrastructure landscape, and it heralds a future of enhanced connectivity, economic growth, and regional integration.

About Yapı Merkezi

Yapı Merkezi is a leading international construction and engineering company with a rich history of delivering complex infrastructure projects around the world. Known for their innovative approach and commitment to excellence, Yapı Merkezi has consistently set new standards in the industry.
